## News from Mrs. Rinella

At CES, we always want to promote good attendance & ensuring our students are at school on time every day. We know that when they are absent, it is hard to get everything made up. However we also want to make sure that if students are sick that we work together with parents and guardians to ensure all of students and staff stay safe at school. As a school division, we work closely with the Health Department to ensure student safety during cold and flu season. At school, we remind students to cover their mouth when sneezing, wash their hands frequently and clean our building using disinfectants regularly. Here are some preventative measures that can be taken at home by parents & guardians:

1. Getting the Flu Shot
2. Promote good hygiene with frequent & thorough handwashing.
3. Use disinfectants regularly when cleaning at home.
4. Keep students home if they have a fever and until they are fever free.
5. Seek immediate medical attention if your child's symptoms do not improve.

## News from Mr. Wells

Each year on February 2, we celebrate Groundhog Day! People excitedly await to hear whether Punxsutawney Phil sees his shadow or not. Whether we have six weeks until spring or six more weeks of winter, school routine and consistency remains important. With the unpredictability of weather, and the possibility of a snow day, here are a few ideas to help maintain your child's academic progress:

1. Create a cozy nook with blankets and pillows and read a book with your child.
2. Write a story after building a snow man or going sleigh riding.
3. Practice counting by 1s, 2s, 5s, and 10's forwards and backwards to 100 and beyond.
4. Use a deck of playing cards to create a basic math fact game to practice basic math facts.

Catch a Wave! *Mr. Wells*

*Girls of the Run begins Monday, February 5<sup>th</sup>! Practices will be Monday & Thursday afternoons until 5pm. Good luck to this year's team!*

## News from Mrs. Puckette

During late February the sensitive areas of our Family Life Curriculum will be taught to our third, fourth, and fifth grade students (A schedule was sent home on February 1). The content involves personal/social development. The boys and girls will be taught these objectives separately. Objectives taught and materials used may be previewed in my office. After reviewing the curriculum and materials, parents may exercise the option of removing their child from the family life portion of the guidance and counseling program by completing a form also available in my office. ***This request must be made each school year.*** Please email or call Mrs. Puckette ([wpuckette@campbell.k12.va.us](mailto:wpuckette@campbell.k12.va.us)) if you are planning to come by to look at the curriculum so she can plan to be available.
